

# COST EFFECTIVE & ECO-FRIENDLY SOLUTIONS FOR WASTEWATER

organica  
biotech

**Having treated numerous industries and remediated several waterbodies, Organica Biotech a pioneering Environmental Biotech Company, has emerged as a global leader in the realm of waste water treatment. Our rich research experience of nearly two decades and continuous technical support have successfully met the demands of a wide range of industries (like pharmaceuticals, textiles, food processing units, tanneries, petrochemical, oil refineries etc) and various governmental bodies.**

**Revolutionize productivity, safety & compliance...naturally**

# Our Solutions

## Cleanmaxx

- High value COD/BOD reduction
- Survival in variable shock loads
- Stability in high TDS levels and variable shock loads

## Cleanmaxx ANB

- Enhancement in biogas generation
- High value COD/BOD reduction
- Faster commissioning and stabilization of anaerobic reactor

## Cleanmaxx FOG

- Effectively degradation of Fats, Oils and Grease
- Significant odour control
- Effective and easy to use

## Cleanmaxx STP

- Effective degradation of sludge
- Maximum reduction of nutrients
- Significant odour reduction
- Guaranteed reduction in operational and maintenance costs.
